Re: Blackburn Septic Service – Call from Fay Bell Blackburn

I received a call from Fay Bell Blackburn (08-02-02, 830 A.M.) stating that Mr. Harold Old was not dumping at 1122 W. Division on July 31, 2002. She said that she is responsible for the business and that she is staying at Gary Blackburn's place until she can get his estate settled. She also stated that she is going to sell the business. She said that the neighbor is trying to cause problems because he wants to buy her place and that she is not going to sell to him. She is also going to fix it to where the neighbor cannot get her place after she is gone.

Memo

Bob, How does this sound JD.

Re: Blackburn Septic Tank Service discharging to the sanitary sewer at 1122 W. Division

On July 31, 2002 at approximately 8:30 A.M. Randy Lyman told Bob Corson and me that he had just received a call from one of the neighbors of Blackburn Septic Tank Service and that they were discharging at the present time. Bob and I immediately went to that location and found the septic tank truck have its hose connected to a pipe in the ground under their carport. I talked to Mr. Harold Old, 1122 W. Division (Telephone No. 861-6692) while Bob took pictures. Mr. Old explained that he was not discharging a load to the sanitary sewer. He said that he was back flushing his filter and that is what he was discharging to the sanitary sewer. He said that he used to do this once a week but now he only does it about once a month. He showed us the filter. In fact, when we arrived Mr. Old's helper was working on the filter. Mr. Old said that they use clean water from the garden hose to flush the filter. He stated that he pumps this water to the sanitary sewer rather than discharge it onto the ground. Mr. Old said that he does not discharge loads to the sanitary sewer at this location. He takes everything to the Treatment Plant. He said that he has a whole stack of manifests in his truck. Mr. Old said that he knows who complained and that person has been trying to get the owner to sell the property so he can put in a strip mall. We told Mr. Old that we would get back with him.
